Vaigai Arts and Science Women's College, Salem

Experience

Backend Developer — Nulinz Technology, Salem

- Designed and implemented a 10-stage export workflow supported by scalable and secure backend APIs.
- Developed an integrated commerce platform with gamified promotional features to improve user engagement.
- Engineered a logistics management system for driver operations, trip scheduling, and job tracking.
- Built a warehouse management system with dashboards, photo-based scanning, and attendance monitoring.

Full Stack Developer Intern — ES EthicSecur SofTec, Salem

- Developed and launched an animated corporate website, improving brand presence and user engagement.
- Implemented a responsive client portal optimized for international users and multi-device compatibility.
- Designed and deployed an educational institute website that contributed to increased student enquiries.
- Created an admin dashboard for managing students, fees, and payment records efficiently.

Projects

Event Nexus – Event Management Platform (React.js, Node.js, Express.js, MySQL)

- Developed a full-stack event management system with real-world workflows for users, organizers, and admins.
- Implemented role-based access control (Admin / Organizer / User) with event creation, approval, and booking flows.
- Integrated mock payment processing and secure backend APIs with structured MySQL database design.
- Built a fully responsive user interface supporting mobile to desktop devices for seamless user experience.

E-Commerce Platform (HTML, CSS, JS, MySQL)

- Designed a responsive and mobile-friendly shopping interface with dynamic cart and wishlist using MySQL.
- Implemented interactive UI components with JavaScript for real-time item updates, quantity changes.
- Enhanced user experience by adding an automatic image slideshow with smooth transitions and navigation controls.

Certifications

- MERN Fullstack (Udemy)
- Fullstack Java (Imagecon Academy)
- WordPress (Udemy)
- SAP-ABAP (ERP Hub Solutions, Chennai)
